Occupational Health and Safety (OHS) Act in-depth

UNIT STANDARD NUMBER: 242668

UNIT STANDARD LEVEL (NQF): 04 (4 credits)

FIELD: Business, Commerce and Management Studies

Duration

Full Training (Novice): 1 Day

Recertification Training/Evaluation: 1 Day

Remedial Training: 1 Day

Students

Minimum of 2

Course outline

Assure legal compliance in terms of the Act

Understand the implementation requirements of the regulations and other relevant legislation and standards

Recognise potential hazards and risks while using available methods for elimination

Understand the importance of documentation

Demonstrate the due diligence required to safeguard people in the workplace Understand the requirements for effective incident/accident and near-miss investigation and recording

Recognise the costs involved in managing incidents

Assure the reduction and removal of hazards and risks in systems and processes

Provide practical, hands-on methods and procedures to increase employee performance

Understand relevant changes and developments within the Act

Each learner will receive

- A learner workbook including progress quizzes
- Logbook and checklist example templates
- A portfolio of evidence of practical and theoretical evaluations

Assessment methods

We conduct a formative theoretical assessment at the beginning of the course to gauge the learner's initial understanding (novices only). At the end of the training, a summative theoretical, as well as a practical application assessment is conducted, and the learner is found competent, and if not, additional developmental areas are identified and suggested.
